

hot-s-hot.com is brand new! hot-s-hot.com is different from other marketplaces!

hot-s-hot.com is user-friendly and a dynamic marketplace where you can buy and sell. The marketplace is available in five languages and divided into four main areas, ready to go online with you worldwide.

Start your online business, we have everything prepared for you!

On November 11th, 2025, we will launch in Asia, in Thailand, and will then expand to other countries, including China, Russia, and Central Europe, via social media to reach our target audience and position hot-s-hot.com. And you can be part of it.

We will be giving away "free packages" for the first 111 online registrations during the 11 days following the opening... seize your opportunity now.

Using hot-s-hot.com is simple and clear for every user, and always focuses on the product, the seller, and the searching customer. No blinky ads, no intrusive design, no annoying advertising, registration is very easy, and you get a fully functional sales platform to showcase your services/items at an extremely affordable price!

hot-s-hot.com

is divided into four sections: **DATING - PROPERTY - MARKET - VEHICLES** all of which have the same look and are very easy to use, but are color-coded and therefore easy to distinguish.

Users quickly learn how to navigate and find their way around.

Handling, using, and placing items is so simple and uncomplicated that new items can be quickly positioned and easily installed for sale in the specialized area. The interested party can browse everywhere. They don't necessarily have to be registered or logged in, but by registering they can use many additional features, such as "My Recent Visits," "Save Notes," "Chat with the Seller," and ask questions, or even place their own planned sales.

This turns the interested party into a seller!

For initial contact, the interested party can quickly find information such as phone number, company address, or email, provided the seller allows this and wants to display it.

The seller can place their items in all four sales areas and, likewise, position, operate, and sell with their company everywhere. Depending on the booking package, they will then have access to the corresponding number of items.

DATING

PROPERTY

MARKET

VEHICLES

The DATING level contains four contact areas:

- 1) Present yourself and find friends, hobby sports, dancing, or nightlife contacts, show yourself to the contact partner, create your own profile, tell about yourself, who you are and what you plan to do.
- 2) Search for a partner by appearance, type, height, or hobbies and interests, filter, make contacts, and fall in love, or date someone for a night out.
- 3) Look for a job. Freelancer or specialist. At hot-s-hot.com, everyone can position themselves and describe their services, what they are good at, what they are looking for professionally, and what new job they are looking for.

hot-s-hot.com is also a job board where you can offer your expertise. Job DATING - find a date between "job search" and "company search."

- 4) Companies and businesses operate on hot-s-hot.com
 - employee search. Search for and find a new colleague...or
 - search for customers and establish new business contacts.

Describe the company, upload the company logo as your profile photo, describe what the company can do and what it offers, look for new clients, or describe who is looking for as an employee, what qualifications they should have, and which area of work needs to be filled.

Describe the job and all the details that might be of interest to the applicant.

Describe the company; this is important, because you can find new clients on hot-s-hot.com!

PROPERTY is about all types of real estate.

From apartments to high-rises, from shops to warehouses.

Buying, leasing, or renting. All options can be presented.

Perfect for private home sellers, because they can display their contact details online directly and can advertise their property completely free of charge!

Professional sellers book an affordable Professional, Premium, or Business Package and benefit directly from their sales success.

If the seller would like to show more photos of the property or provide more detailed information about their property, they simply book the appropriate package. They can then book the online advertising long-term at a low price by selecting the package duration.

The price list is clear and can cover every seller's needs.

DATING PROPERTY MARKET VEHICLES

In MARKET, hot-s-hot.com users will find the same application structure as in PROPERTY. Here, too, users can register as an agent or their own seller and sell themselves, determining which contact details are published.

In addition, only in "MARKET" is it possible to use a separately bookable SHOP module from hot-s-hot.com, for terms of 6, 12, and 24 months, to store their bank account details for direct payment upon sale. You can find more information on our social media channels, where the shop setup and use are explained in detail.

Anything that couldn't be placed in DATING, PROPERTY, or VEHICLES, or that is better placed in MARKET, can be placed on MARKET. Services, files for download, music files, products, and all everyday items.

In VEHICLES, you'll find everything for moving and transporting. Boats of all kinds, cars, vans, trucks, busses, trailers, jet skis, bicycles, and even motorcycles. VEHICLES has a good search function to quickly find what you're looking for.

Just like with MARKET and PROPERTY, dealers and resellers will find a good base and sales platform here to perfectly present and offer all their products.

More information on our social media channels.

Welcome! Your www.hot-s-hot.com team..
